

MasterFILE Premier

EBSCOhost Database Subject List

Due to the careful subject classification of titles required, subject lists are not as current as our standard database title lists. As a result, recently added content may not be shown. See alphabetized coverage lists for more current information with ISSN, publisher, embargo information, coverage dates, PDF availability, etc.

Please Note

Publications included on this database are subject to change without notice due to contractual agreements with publishers. Coverage dates shown are the intended dates only and may not yet match those on the product. A small number of titles are not available through some delivery systems due to publisher restriction in distribution.

Agriculture & Farming

Works on the business and science of raising livestock, cultivating soil, producing crops, raising animals, and farming.
