План

Відбулися зміни в авторському профілі про які оголошували 19 березня. Зараз маємо багато схвильованих авторів у яких «зниклі публікації».

На вебінарі переглянемо як створити, наповнити,

що можна додати, підтвердити позицію автора, хто може редагувати і бачити ваші здобутки.

Відповіді на запитання з реєстраційних анкет

Профілі дослідників Web of Science

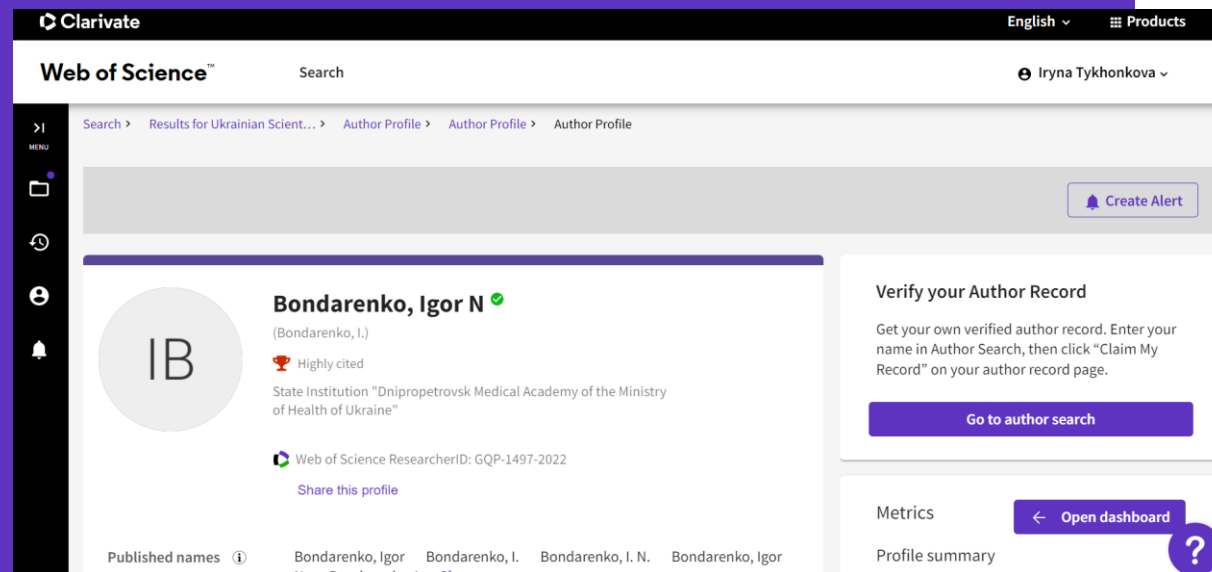

Introducing authorship claims verification!

With this significant improvement, you will see the following changes on your researcher profile:

- **Verified Publications** where you are matched as an author will only be shown on the public profiles.
- **Private Dashboard** displays all the publications claimed with verification statuses for the profile owner.
- **Non-verified authorships** can be verified by selecting the right author position.
- **Data correction support** team will assist with claiming an author position if it is unavailable.

These actions will aim to resolve the inconsistencies with the publication counts and boost the quality of our researcher profiles data and is now available on Web of Science for you!

The screenshot shows the Web of Science interface for an author profile. The author is Igor N. Bondarenko, with a verified status (green checkmark). The profile includes a circular icon with the initials 'IB', a 'Highly cited' badge, and affiliation with the State Institution "Dnipropetrovsk Medical Academy of the Ministry of Health of Ukraine". It also displays the Web of Science ResearcherID: GQP-1497-2022 and a 'Share this profile' link. On the right, there is a 'Verify your Author Record' section with a 'Go to author search' button. Below that, there is a 'Metrics' section with an 'Open dashboard' button and a 'Profile summary' section. The top navigation bar includes 'Clarivate', 'English', and 'Products'. The user's name 'Iryna Tykhonkova' is visible in the top right.

Пошук за автором

Ідеальний сценарій

The screenshot displays the Web of Science search interface. At the top, the Clarivate logo is on the left, and 'English' and 'Products' are on the right. Below this, 'Web of Science™' and 'Search' are on the left, and the user's name 'Iryna Tykhonkova' is on the right. The main content area is divided into two tabs: 'DOCUMENTS' (greyed out) and 'RESEARCHERS' (active). The 'RESEARCHERS' tab contains two search input fields. The first field, labeled 'Name Search', has a dropdown menu open showing three suggestions: 'MALANCHUK', 'MALANCHUK', and 'MALANCHUK-RYBAK'. The second field, labeled 'First Name and Middle Initial(s)', contains the letter 'o'. Below these fields are 'Clear' and 'Search' buttons. A vertical sidebar on the left contains icons for menu, home, history, profile, and notifications. A help icon is in the bottom right corner.

Author Impact Beamplots

How to read this beamplot

Each purple point on the beamplot represents an article. Its position shows its year of publication (y-axis) and its **citation percentile** (x-axis).
Hover over a publication(s) to see the publication information.
Articles published in the current year are not plotted in the beamplot.

● One publication ■ Two publications ■ Three or more publications

The annual median shows you the average citation percentile of all publications from the same year.

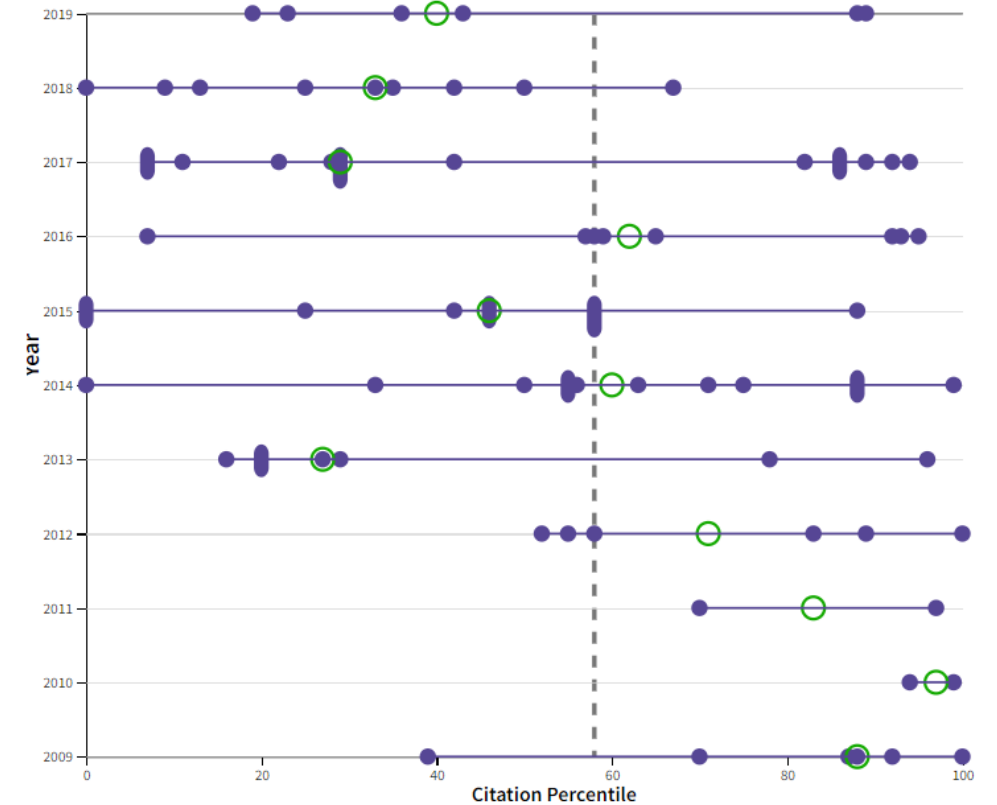

○ Annual percentile median

The grey dashed line shows the overall citation percentile median of all publications in the beamplot.

For more information, visit our [help page on Beamplots](#). [↗](#)

PUBLICATIONS AUTHOR IMPACT BEAMPLOT

Range: Recent 10 Years

● Citation percentile ○ Annual citation percentile - - - Overall citation percentile median

Citation counts are from Web of Science Core Collection; citation percentile data are from InCites.

Запропоновані Lutz Bornmann та Werner Marx 2014

Прочитати

Percentiles

Because citation distributions are strongly skewed, percentiles provide a good measure of central tendency.

90%+

score means that a paper is among the 10% most cited in the field

When comparing citation counts, it is important to account for variation in how citations accumulate across different fields. Differences in the volume of papers published, the average number of references made (citation density) and the tendency to cite older or more recent work all affect the rate at which citations accrue. Hence, it is common for bibliometric indicators to account for these differences using normalization – the comparison of citation counts to a reference set (or benchmark) that is based on:

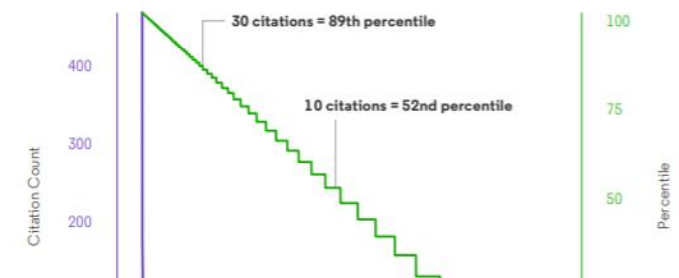

- Papers published in the same year

Using a reference set enables comparisons of citation counts across disciplines. However, the underlying skewness in the distribution of citations is also a problem. Many papers are never cited, most will only collect a few and a very small number will gather hundreds and perhaps thousands of them. This skew means traditional measurements, such as the mean or median, do not accurately convey the average (central tendency) because the data are not normally distributed.

A simple way to address this problem is to use percentiles instead of the raw citation counts. We illustrate this in Figure 2 where the distribution of citation counts is shown for organic

chemistry articles published in the Web of Science in 2015. In purple (left axis), the number of citations received is plotted from 462 on the left (the highest citation count), all the way to 0 on the right and shows the characteristic long-tail distribution. In green (right axis), the corresponding percentile is shown, starting on the left at 100 (for example, 100% of other articles in the distribution have a lower citation count) and dropping regularly down to zero. The figure highlights three points (30, 10 and 5 citations) to show percentile values. The steps that become more noticeable toward the right convey the discrete drops in citation count, with the final step denoting the articles that received just one citation.

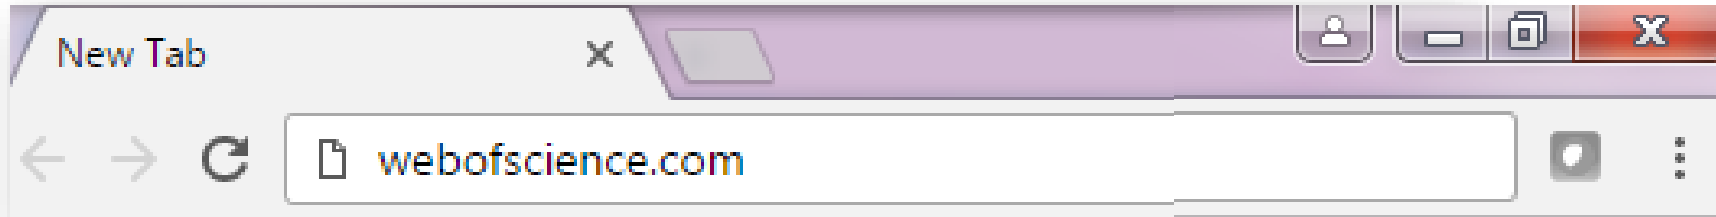

Figure 2: Citation counts (purple, left axis) for 19,264 articles published in organic chemistry in 2015 and their corresponding percentile values (crimson, right axis)

The image shows a screenshot of a web interface for editing a profile. The interface is divided into two main sections: 'ДОКУМЕНТЫ' (Documents) and 'ИССЛЕДОВАТЕЛИ' (Researchers). The 'ДОКУМЕНТЫ' section is highlighted with a red oval. Below the tabs, there is a search bar labeled 'Поиск по имени' with a dropdown arrow. Below the search bar, there are two input fields: 'Фамилия*' (Surname*) and 'Имя и инициативы отчества' (First name and patronymic). Below these fields is a button labeled '+ Добавить вариант имени' (+ Add name variant). At the bottom right of the form, there are two buttons: 'X Очистить' (X Clear) and 'Поиск' (Search).

Налаштування профілю

The screenshot displays the Clarivate Web of Science interface. At the top, the Clarivate logo is on the left, and 'English' and 'Products' are on the right. Below the navigation bar, 'Web of Science' is followed by 'Search' and 'Research Assistant BETA'. The user's name 'Iryna Tykhonkova' is shown with a dropdown arrow. A dropdown menu is open, listing 'My Profile', 'Profile Settings', 'Settings', 'End session', and 'End session and log out'. A purple arrow points to the 'Settings' option. The main content area shows a search interface with 'DOCUMENTS' and 'RESEARCHER' tabs. The 'DOCUMENTS' tab is active, showing search filters for 'Web of Science Core Collection' and 'Editions: All'. Below this are tabs for 'DOCUMENTS', 'CITED REFERENCES', and 'STRUCTURE'. A search input field contains 'Ivan Franko National University Lviv' with a dropdown menu for 'Affiliation' and a clear button. At the bottom, there are buttons for '+ Add row', '+ Add date range', 'Advanced search', 'Clear', and 'Search'. A sidebar menu is visible on the left, and a help icon is at the bottom right.

The screenshot displays the Clarivate Web of Science interface. At the top, the Clarivate logo is on the left, and the user's name 'Iryna Tykhonkova' is on the right. The main search area shows 'Web of Science™' and 'Research Assistant BETA'. The search query is 'cu=ukraine and py=2019-2024', resulting in 69,749 results. A dropdown menu is open over the 'Export' button, listing various export formats such as EndNote online, RIS, BibTeX, and Excel. A purple arrow points to the 'Add To Marked List' button. Another purple arrow points to the 'Add Keywords' button. A third purple arrow points to the 'Add To Marked List' button on the article card. The article card shows a title: 'Global burden of 87 risk factors in 204 countries and territories, 1990-2019: a systematic analysis for the Global Burden of Disease Study 2019' by Murray, CJL; Aravkin, AY; (...); Lim, SS, published in LANCET on Oct 17 2020. It has 3,595 Citations and 53 References. A question mark icon is visible in the bottom right corner of the article card.

The screenshot shows a public profile for Oxana Smirnova. The profile includes a circular profile picture, her name with a verified checkmark, her affiliation with Lund University, and her Web of Science ResearcherID (A-4401-2013). Below this, subject categories and other identifiers like ORCID are listed. The main content area is titled 'Documents' and shows a list of publications, with the first one being 'Performance of the reconstruction of large impact parameter tracks in the inner detector of ATLAS'. The right sidebar contains a 'Verify your Author Record' section, a 'Metrics' section with an 'Open dashboard' button, and a 'Profile summary' section listing various publication counts.

✕

If the name you are looking for is not available in the authors list, then most certainly it had already been claimed and honored to an author based on the match between claimed author name and the author's name on the publication that could have been similar.

However, if **you are the right author** and would like to claim the author position on this publication, please feel free to submit a [data correction request](#) to our curation team to help you out by selecting the Product as 'Web of Science Research Profile' and Data type as 'Author record' on the request form.

But in case, if you **are not the author** on this publication and got it added accidentally on to your profile then, please proceed with the **next steps to 'Delete'** these publications.

<https://www.webofscience.com/wos/woscc/data-correction/form/mode:single?>

What should I do if 'My name is not in the list' of available author names in the drop down when I am the right author on the publication?

You can submit a 'Data correction' on the author record if someone has claimed the author position on the publication and so request to reject the authorship of the incorrect claim and then to claim the same author position on to your profile. And, when the correction is done, user can see the authorship verified and shown on your profile.

Follow these steps to submit a correction:

1. You are logged into Web of Science.
2. Click on the URL: <https://www.webofscience.com/wos/woscc/data-correction/form/mode:single?>
3. Provide the document details and the author list.
4. Click on 'Next'

<https://www.webofscience.com/wos/woscc/data-correction/form/mode:single?>

Adding and removing publications from Web of Science Researcher Profiles

About Manual authorship verifications

Updated 12 days ago

Follow

When a Web of Science Core Collection publication or a Preprint record is added to a researcher profile, the Web of Science looks for the author position on the claimed publication. If the system can not find the named author in a position, then it requires the user to manually verify their position on the paper to accept the claim.

What does "authorship" signify in Web of Science researcher profiles?

An authorship is represented by the publication and the author's position among the list of authors of that publication. So, for the Web of Science, when a researcher claims a publication, there will be the profile owner name and the publication metadata (comes with the WoS Accession number identifier for the record) to validate the authorship claimed.

Table of contents

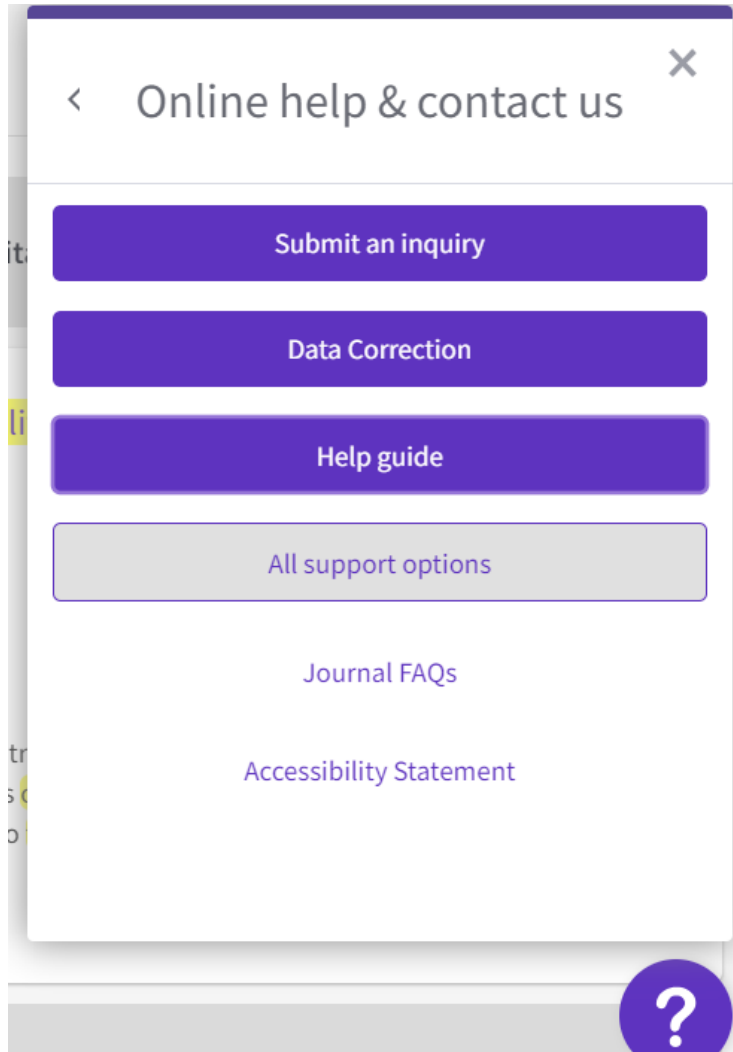

Why do I see my publication count and the metrics lesser on the public profile page than in my private dashboard page?

Why is 'My name is not in the list' of available author names?

What should I do if 'My name is not in the list' of available

Adding and removing publications from Web of Science Researcher Profiles

On a Web of Science researcher profile, you can include the following publication types:

- Journal/conference publications
- Book chapters
- Preprints

We currently do not support book publications nor patents in our data structure. However, we are aiming to support more publication types in the future.

Your author record corrections have been accepted

Thank you for submitting the following corrections to a Web of Science author record for Piven O. O.. Your suggestions have been reviewed and accepted by our team* and will be visible in the Web of Science as soon as possible. Please note it may take up to 48 hours for your corrections to be processed.

Feedback from the editorial team: *We have reviewed and accepted your suggestions, it will be visible in Web of Science within 3 to 5 working days.*

How do I claim/correct this record?

Submit a correction

AT LEAST ONE RECORD IS CLAIMED* BY THE AUTHOR

If you are the profile owner

1. Login to your Web of Science account
2. Go to the unclaimed record that contains your publications and click **Claim my record**. You will then be able to confirm the publications from that record that you want to add to your profile.

If you are not the profile owner

Please submit a [data change request](#), ensuring you choose 'Author Record' from the 'Type of Request' field.

Note: Updates to Web of Science researcher profiles take 3-5 days to be processed.

Verify your Author Record

Get your own verified author record. Enter your name in Author Search, then click "Claim My Record" on your author record page.

Загальна

Вітаємо Вас на українській сторінці Clarivate!

Clarivate є власником і виробником потужних ресурсів та інструментів, що допомагають науковцям проводити, аналізувати, презентувати наукові дослідження на світовому рівні.

На даній сторінці ви знайдете інформацію про основні продукти компанії і їхні можливості, оновлення ресурсів та розклад освітніх програм: вебінарів, семінарів та конференцій.

WoS

Найвідомішим продуктом компанії є платформа наукової літератури Web of Science, на якій серед 15 баз є головна і перша в світі наукометрична база - Web of Science Core Collection (WoS CC) в якій представлено реферативну інформацію з понад 21800 журналів за усіма галузями знань. В WoS CC

Найближчі вебіари

Вебіари безкоштовні, українською, у WEBEX, зверніть увагу що WEBEX не підтримує операційну систему XP та нижче і застарілі версії браузера, оберіть відповідну техніку заздалегідь. Необхідна попередня реєстрація, оберіть зручний час, перейдіть за посиланням, натисніть на слово Register та заповніть анкету. Передбачено сертифікат учасника за умови присутності більше 90 % основного часу вебінару. До зустрічі.

ZOOM

Консультації по профілях установ у Web of Science 8 листопада о 13:00 реєстрація <https://forms.gle/CaHxMsKPw2owy7R79> (повтор від 31.10 та 1.11.2022)

Запитай про Web of Science 3 20 жовтня по 8 грудня кожного четверга о 12:15 20 хвилинна сесія в ZOOM де розбираємо усі питання які

ZOOM серія «Запитай про Web of Science»

Учасники семінарів інколи повідомляють, що хотіли б поставити питання під час вебінару голосом, а не в чаті, але не має такої можливості у WEBEX коли кілька сотень учасників. Тому започатковуємо регулярну ZOOM серію «**Запитай про Web of Science**» що поки проходитиме щотижня по четвергах о 12:15, тривалість до 20 хвилин. Будь-який учасник може долучитися за постійним посиланням та поставити запитання голосом або в чаті. Щоразу будемо розглядати якісь практичні кейси та задачі.

Research Smarter

23 травня 2024

Тема : Відповідальний академічний штучний інтелект для дослідників Web of Science

Тези: Штучний інтелект трансформує академічні дослідження, викладання та навчання. Clarivate гарантує, що ви зможете безпечно і відповідально орієнтуватися в цьому новому ландшафті, забезпечуючи при цьому досконалість досліджень. Приєднуйтеся до цієї сесії, щоб дізнатися більше про нещодавні та майбутні розробки на основі штучного інтелекту у Web of Science, включаючи значні покращення пошуку та майбутній дослідницький асистент Web of Science на основі генеративного штучного інтелекту. Ми обговоримо, як ми впроваджуємо штучний інтелект, щоб допомогти дослідникам усіх рівнів вирішувати складні дослідницькі завдання та отримувати більше від найнадійнішої у світі бази даних цитувань - Web of Science Core Collection.

Підтримка України

The screenshot shows the top navigation bar of the Clarivate website with links for Company, Investors, Careers, Login, and a search icon. Below the navigation is the Clarivate logo and a secondary menu with links for Who we serve, Products & Services, Resources, and Contact us. The main content area features a large image of a modern building facade with a grid of windows. The headline reads 'Clarivate to Cease all Commercial Activity in Russia'. Below the headline is a sub-section titled 'Company Statement' dated March 11, 2022. The text of the statement explains the company's decision to close its office in Russia and its commitment to supporting its employees and customers during this difficult time.

Clarivate to Cease all Commercial Activity in Russia

Company Statement

March 11, 2022

Clarivate to Cease all Commercial Activity in Russia

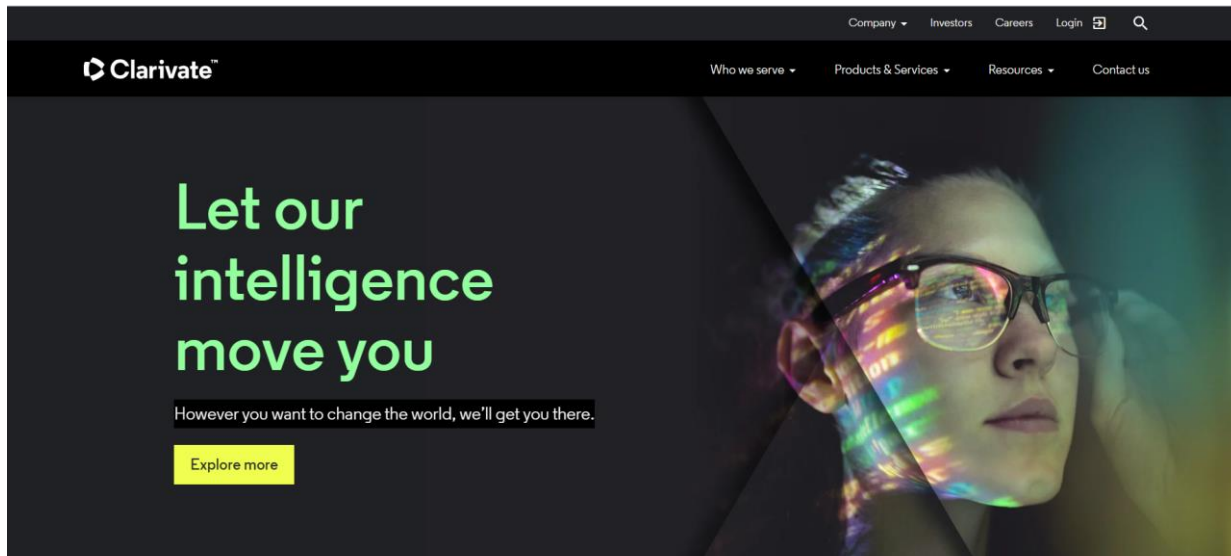

Clarivate respects and supports the rule of international law and joins the global community in condemning Russia's attack on Ukraine. Given the continued aggression against Ukraine by Russian forces, Clarivate has made the decision to close its office in Russia effective immediately and we will work to cease commercial activity in Russia in the coming weeks. Clarivate will work closely with our customers to manage the impact of our actions to their business and provide them more information as our process moves forward.

Our focus also continues on supporting the well-being of our colleagues and contractors across the region. We are working continuously to understand their needs and are doing all we can to provide support during this incredibly difficult time.

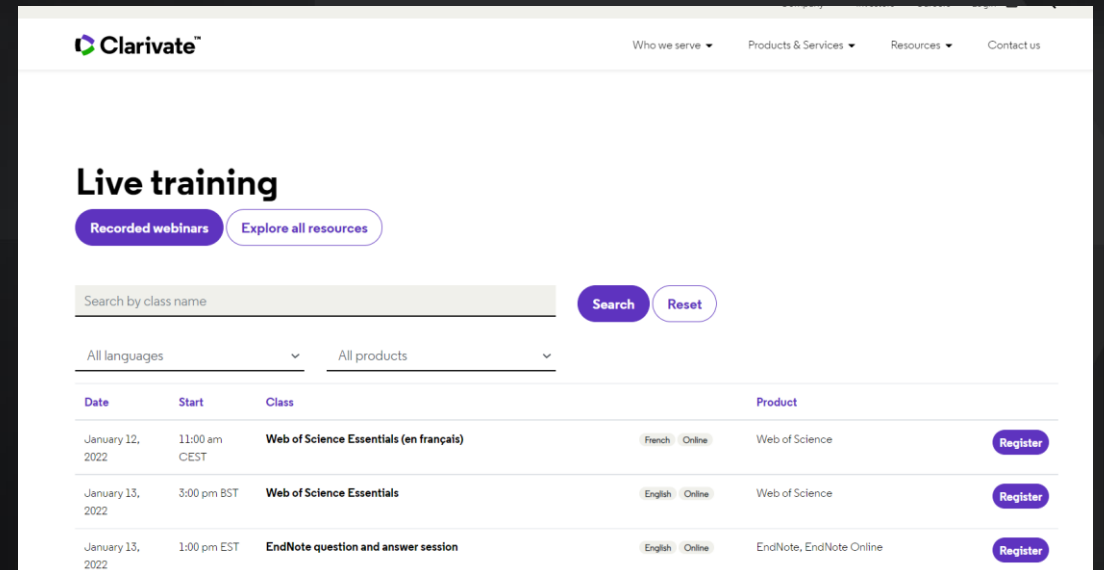

Clarivate continues to support calls for a cease-fire, the end to hostilities, the protection of civilians, and a negotiated settlement to peacefully resolve any differences and to avoid further needless devastation and loss of life for the Ukrainian people.

This development follows our action to suspend all evaluation of new journal submissions from Russia and Belarus in the Web of Science a week ago.
