ENGINEERING SCIENCE. DYNAMICS AND STRENGTH OF MACHINES. LIFTING-TRANSPORT MACHINES

<i>Vikovych I. A.</i> Model and calculation method for transverse-angular oscillations of bitumen crushed stone aggregate with hot liquid bitumen.....	9
<i>Vikovych I. A., Shevchuk L. I., Stroganov I.</i> Oscillations of the ring's electromagnetic resonance vibratory cavitator at the resonance mode.....	19
<i>Gursky V. M.</i> Comparative analysis of the resonant vibro-impact two and three-mass structure systems with linear friction	25
<i>Diveyev B., Opalko V., Cherchuk G.</i> Vibration loading of threaded connections in the construction of the seeder	33
<i>Kuzio I., Kunta O., Kharchenko Ye.</i> Stability calculation for aboveground stations of pipeline.....	45
<i>Lanets O. S., Kachmar R. Ya., Borovets V. M.</i> Justification of parameters of the vibratory hopper feeder with an electromagnetic drive	54
<i>Lovejkin V. S., Pochka K. I.</i> Synthesis of the cam drive mechanism of the roller molding construction with optimum mode by acceleration of the fourth order.....	77
<i>Korendii V. M., Furdas Yu. V., Bushko O. S.</i> Investigation of influence of inclination angles of sail-type blades on the starting torque of horizontal-axis wind-wheel.....	83

INDUSTRIAL AND MANUFACTURING ENGINEERING. THE MACHINING PROCESSES, MACHINES AND TOOLS

<i>Dzyubyk A., Nazar I., Dzyubyk L., Palash R., Sakovets A.</i> Ensuring the technological strength of welded joints of casing pipes.....	94
<i>Dzyubyk A. R., Voytovych A. A., Dzyubyk L. V.</i> Optimization of technology of surfacing wear-resistant layers on flat structural elements	103
<i>Stupnytsky V. V., Dolynjak Ya. V.</i> Analysis of simulation results the effect of temperature factors on the condition of the surfaces in the forming process.....	108
<i>Stupnytsky V. V., Stupnytsky S. V.</i> Multi-objective optimization of functionally-oriented technological process of machining hardened surfaces of the molds.....	118

THE DEVICES AND METHODS OF MEASURING MECHANICAL QUANTITIES. SYSTEMS AND MANAGEMENT PROCESSES. AUTOMATION OF MANAGEMENT PROCESSES

<i>Manulyak I. Z., Melnychuk S. I.</i> Algorithmic and signal processing circuit means of pulse primary converter estimated information entropy.....	127
