Contents

Mykhailo Antonovych Sukhorolsky.....	7
<i>Vavrychuk P.</i> The influence of pressure on the availability of gas in water in layers of underground gas storage.....	9
<i>Vlasov A., Demiczkowski A., Ivaszczenko O., Lopatiev A., Maryan Pityn M., Yaroslav Pjanylo Ya., Oleg Hudoli O.</i> Systemic approach and mathematical modeling for biological process and objects studying are proposed and justified in this article.....	17
<i>Gayvas B., Dmytruk V., Dmytruk A.</i> Drying of grain in active regimes taking into account its stratified structure.....	29
<i>Hachkevych O., Solodyak M., Ivas'ko R.</i> On the statement of the problem of electrodynamics for nonferromagnetic layer subjected to bilateral induction heating.....	42
<i>Gladun S.</i> Modeling and optimization of masstransfer in the system «the underground gas storage reservoir – the main gas pipeline».....	52
<i>Holubets T.</i> The probability methods for the description of an equilibrium thermodynamic state of the binary interacting mixtures.....	61
<i>Hrytsyna O.</i> The model of thermo-elastic solid solution which incorporate the irreversibility and inertia of local mass displacement.....	81
<i>Zhuk Ya., Hashemi M.</i> Frequency and amplitude dependence of complex moduli of composite material reinforced with nanofibers.....	92
<i>Kostrobij P., Markovych B., Viznovych O., Tokarchuk M.</i> Generalized diffusion equation in the fractional derivatives in Renyi statistics.....	108
<i>Musij R., Melnyk N.</i> Thermostressed state of the bimetallic layer by electromagnetic action mode with pulse modulating signal.....	119
<i>Mukha I.</i> Investigation of behaviour of approximate solution of a nonlinear boundary value problem in the instability area.....	133
<i>Prokopyshym I.</i> A contact interaction between elastic bodies one of which has a cover connected with a base through a Winkler layer.....	144
<i>Serednytska K., Martynyak R.</i> The effective interfacial parameters of a bimaterial with a periodic set of heat-conducting interfacial cracks.....	161
<i>Spodar N., Savula Ya.</i> Computational aspects of multiscale finite element method.....	169
<i>Stankevych V.</i> On solution of the first and second boundary problems dynamic elasticity theory of steady oscillations of half-space with elliptical cracks by biem.....	178
Information for Authors.....	186
