CONTENTS

Introduction	11
Part 1. THEORETICAL AND METHODOLOGICAL BASIS OF INTELLECTUAL AND INNOVATIVE TECHNOLOGIES	15
1.1. Technological product in the production system.....	15
1.2. Intellectual innovation technologies as an economic category.....	26
1.3. Open-closed model of organization of the innovation process with the intellectual component.....	37
Conclusions to part 1.....	56
Part 2. CURRENT STATE AND PROSPECTS OF DEVELOPMENT OF MARKET OF INTELLECTUAL-INNOVATIVE TECHNOLOGIES	57
2.1. Conceptual bases of formation of the market of intellectual products.....	57
2.2 Analysis of the current state of Ukrainian market of intellectual innovation technologies.....	73
2.3. Research of problems of development of Ukrainian market of technology.....	100
Conclusions to part 2.....	111
Part 3. THE COMMERCIAL POTENTIALLY TECHNOLOGIES BASED ON THE TECHNOLOGICAL AUDIT	113
3.1. Technology audit as a tool for commercialization of intellectual innovation technologies.....	113
3.2. The development of the theory and practice of technological audit.....	132
3.2.1. Technological leverage in the system technology commercialization.....	132
3.2.2. The rationale for the economic prerequisites for effective the use of technology in its own production for its developer.....	147
3.2.3. The rationale for the economic prerequisites for effective use of technology in its potential consumer.....	155
Conclusions to part 3.....	162
Part 4. THE DEVELOPMENT OF VALUATION METHODS OF INTELLECTUAL PROPERTY OBJECTS	164
4.1. Analysis of the existing methods of valuation of products of intellectual	

labor.....	164
4.2. Modeling the range of change of transfer prices of the IPO on the basis of minimax.....	187
4.3. Methodical approach to assessing the value of intellectual technologies according to the citation index (on the example of patents).....	219
4.4. Practical approbation of the theoretical and methodological developments in the assessment of the value of intellectual innovation technologies.....	247
Conclusions to part 4.....	253
Part 5. MONITORING OF COMMERCIAL POTENTIAL OF TECHNOLOGIES.....	255
5.1. Conceptual approaches to the monitoring of commercial potential of technologies.....	255
5.2. Monitoring of the commercial potential of technology based on tangential features of the economic effect.....	261
5.3. Monitoring of market attractiveness of the technology on the basis of archangelo functions properties of consumer and commercial risk.....	274
5.4. Evaluation of the market attractiveness of intellectual technologies on the basis of integral monitoring functions.....	286
Conclusions to part 5.....	302
Part 6. METHODOLOGICAL TOOLS TECHNOLOGY AUDIT.....	304
6.1. Ranking the intellectual-innovative technology of engineering production by the method of desirability function.....	304
6.2. Justification of the choice of reference technology based on the concept of benchmarking.....	321
6.3. Integrating environmental and social factors when conducting the audit process.....	331
6.4. Risk assessment of commercialization of intellectual-innovative technologies using the method of pairwise comparisons.....	341
Conclusions to part 6.....	353
CONCLUSIONS.....	355
LIST OF REFERENCES.....	361
APPENDIX.....	391
<i>Appendix 1. The law of Ukraine "On state regulation of activities in the field of technology transfer".....</i>	<i>391</i>
<i>Appendix 2. The procedure for state accreditation of individuals and legal</i>	

entities to carry out intermediary activity in the sphere of technology transfer.	413
<i>Appendix 3.</i> Model provision on the subdivision on technology transfer, innovation and intellectual property of the Ministry, other Central Executive body, National Academy of Sciences and sectoral academies of Sciences.....	416
<i>Appendix 4.</i> Methodical recommendations about establishment and operation of centres of technology transfer.....	422
<i>Appendix 5.</i> The charters of the technology transfer Center (legal entity).....	425
<i>Appendix 6.</i> The charters of the technology transfer center (non-juristic persons).....	431
<i>Appendix 7.</i> The position of the center of commercialization and technology transfer in higher education.....	437
<i>Appendix 8.</i> Guidelines for commercial developments resulting from scientific and technological activities.....	443
<i>Appendix 9.</i> The types of contracts on transfer of rights on objects of intellectual property.....	457
<i>Appendix 10.</i> The order and directions of use of funds obtained as a result of transfer of technologies created at the expense of the state budget.....	462
<i>Appendix 11.</i> The procedure of control of payment of remuneration to authors of technologies and/or their components.....	463
<i>Appendix 12.</i> The procedure of registration of technologies and their components that were created or acquired for budgetary funds or created or acquired by enterprises of state ownership.....	466
<i>Appendix 13.</i> Kinds of technology and ways of their transmission.....	469
<i>Appendix 14.</i> Classification of the forms of technology transfer.....	472
<i>Appendix 15.</i> Transfer of intellectual property rights.....	478
<i>Appendix 16.</i> Options transfer of scientific and technical products.....	483
<i>Appendix 17.</i> License agreement for use of the invention (an exclusive license).....	484
<i>Appendix 18.</i> License agreement for use of the invention (non-exclusive license).....	490
<i>Appendix 19.</i> Optional license agreement.....	496
<i>Appendix 20.</i> The contract of the commercial concession.....	498
<i>Appendix 21.</i> License agreement for use of know-how.....	503
<i>Appendix 22.</i> The agreement on creation (transfer) of scientific-technical products and rendering of scientific and technical nature.....	510
