CONTENTS

<i>Berezko L., Sokolov S.</i> Features of biotechnical part cyber-physical systems.....	3
<i>Bybel V., Hlukhov V., Pristopiuk O.</i> Analysis of data wireless technologies for educational process modernization.....	10
<i>Vozna N.</i> Theoretical foundations of assessment method of structured multifunctional data entropy.....	17
<i>Lopit I.</i> Optimization of the greedy search algorithms for combined data sequences.....	29
<i>Melnyk A., Maystrenko M.</i> Application-specific processors optimization design on <u>c2hdl</u> automatic synthesis tool and design kit.....	37
<i>Melnyk A. O., Kozak N. B.</i> Parameters of macrocommand system for graphics accelerator.....	48
<i>Melnyk V.</i> Organization basics and timing characteristics of the multiprocessor self-configurable computer systems.....	53
<i>Miyushkovych E., Hrebenyak A., Paramud Y.</i> Telecommunication subsystems of cyber-physical systems.....	65
<i>Pasternak I.</i> Principles of social network with minimal load on server.....	74
<i>Prots'ko I.</i> Review the algorithms of the efficient computation of dft based on cyclic convolutions.....	82
<i>Solomko M., Krulikovskiy B.</i> Transfer optimization while adding of binary numbers.....	88
<i>Trembach B.</i> Method of determining the distance to the source of acoustic signals.....	102
<i>Yarkun V, Paramud Y.</i> Algorithmic and software synchronization of information exchange.....	111
<i>Yatsuk V., Matviiv R.</i> Design of automatic error corection for dc voltage calibrator.....	119
