of the National Technical University "KhPI". Series: Hydraulic machines and hydraulic units: = Bulletin
(online). X.: « », 2020. 1. 119. ISSN 2411-3441 (print), ISSN 2523-4471

The publication is devoted to the coverage of achievements in the field of hydropower, systems of regulation of hydroturbines, structural synthesis and analysis of schemes of hydropneumatics and hydraulic drives, dynamic synthesis and analysis of hydropneumatic drives. The researches of working processes in blade and volumetric hydraulic machines of oil and gas industry are described.

For scientists, teachers of higher education, post-graduate students, students and specialists in the field of hydropower and oil and gas industry.
