The bulletin publishes original articles devoted to topical problems of mathematical analysis, theory of differential equations, mathematical physics, geometry, topology, algebra, probability theory, optimal control, theoretical mechanics, elasticity theory, fluid and gas mechanics. All articles submitted to the Editorial board are reviewed. After publication, each article is provided with an abstract in "Zentralblatt MATH Database (zbMATH)" (<http://www.emis.de/ZMATH>) and indexed in Google Scholar. A table of contents and the summaries of the articles are located on the Web-site <http://www.mechmat.univ.kiev.ua/VisnykUniv>.
