CONTENTS

<i>Information for the Authors</i>	5
V. Dovhaliuk, Y. Chovniuk, M. Shyshyna <i>Analysis of Heat And Mass Transfer and Deformation of Colloid Capillary- Porous Bodies Processes by Fractal Analysis and Discrete Nonlinear Dynamics Methods (in Ukrainian)</i>	6
O. Zadoiannyi, O. Tovstohrai <i>Comparative Exergy Analysis of Microclimate Support Devices in Office Premises (in Ukrainian)</i>	17
V. Mileikovskiy, T. Tkachenko, V. Dziubenko <i>An Analytical Description of the Expansion of Plane Wall Jets (in Ukrainian)</i>	28
M. Kordiukov <i>A Method of Calculating the Thermal Load on the Air-Conditioning and Heating from Ventilation with Heat Recovery (in Ukrainian)</i>	36
I. Redko, A. Redko, A. Priymak, Yu. Burda <i>Optimization of the Parameters of the Heat Network Under a Reduced Temperature Schedule (in Ukrainian)</i>	41
S. Protsenko, M. Kizeev, O. Novytska <i>Development of Methodology of Thermal Energy Distribution on Heating Between Consumers of The Multi-Apartment Building (in Ukrainian)</i>	48
V. Denhub, V. Konovaliuk <i>Experimental Research of the Exergy Efficiency of Water Heat Networks and Heating Systems (in Ukrainian)</i>	53
