# **COMPUTER SYSTEMS**

## **Tutorial**

for training students in foreign languages  
majoring in Applied Computer Engineering

Kharkiv 2021

**UDC 004.03**

**N64**

*Recommended for publication by the Academic Council of Faculty " Computer and Information Technology" of National Technical University " Kharkiv Polytechnic Institute" (protocol 2 from 22.09.2021)*

**Reviewers:**

*Ivan OBID*, Doctor of Technical Science, Professor, Professor of the of Microprocessor Technologies and Systems Department, Kharkiv National University of Radioelectronics;

*Nina KUCHUK*, Doctor of Technical Science, Professor, Professor of the of Computer Science and Programming Department, National Technical University "Kharkiv Polytechnic Institute"

**Nikitina L, Kasilov O.**

N64 Computer systems; a textbook fur foreign students majoring in "Applied Computer Engineering" / L. Nikitina, O. Kasilov. Kharkiv: Tochka Publishing House, 2021.257 .

ISBN 978-617-7856-14-5

This textbook deals with general computer systems organization. The fundamentals of computer systems design and organization are presented. An overview of the major features and interactions of the hardware and software components of modem computer systems is also included. This textbook covers the questions of the fundamental multiprocessor, multicomputer structures and system resource management.

The material of the textbook is recommended for students majoring in "Applied Computer Engineering".

# CONTENTS

1 INTRODUCTION TO COMPUTING.....	5
1.1 Basic Computer Architecture.....	5
1.2 Processors.....	7
1.3 Memories.....	8
1.4 Buses.....	12
1.5 Input/Output.....	13
1.6 Operating Systems.....	15
1.7 General Computational Models.....	17
2. CLASSIFICATION OF COMPUTER SYSTEMS.....	25
2.1. Cost and productivity of computer system.....	25
2.2. Structure of a computer system.....	26
2.3. Classification of computer systems.....	26
2.4. Computer systems architectures.....	29
2.5 Pipelines.....	38
2.6 Parallel computing.....	41
3 COMPUTER SYSTEM RESOURCE MANAGEMENT.....	46
3.1 Processor Management.....	46
3.2 Device Management.....	47
3.3 System Management Components.....	48
3.4 Process management.....	51
3.5 Process Scheduling.....	54
3.6 Interprocess Communication.....	60
4 DEADLOCKS AND STARVATION.....	68
4.1 Resources.....	68
4.2 Deadlock definition.....	69
4.3 Conditions for Deadlock.....	69
4.4 Diagramming Deadlocks.....	70
4.5 Ways to deal with Deadlock.....	71
5 MULTIPROCESSORS.....	80
5.1. Characteristics of multiprocessors.....	80
5.2. Interconnection Structures.....	82
4.3. Interprocessor Arbitration.....	89
5.4. Interprocessor Communication and Synchronization.....	95
4.5. Cache Coherence.....	99
6 INPUT-OUTPUT ORGANIZATION.....	103

6.1 Peripheral Devices.....	103
6.2 I/O Interface.....	104
6.3 I/O Bus and Interface Modules.....	104
6.4 I/O versus Memory Bus.....	106
6.5 Isolated versus Memory-Mapped I/O.....	106
6.6 Asynchronous Data Transfer.....	108
6.7 Modes of transfer.....	115
7 INPUT/OUTPUT CHANNEL AND PROCESSOR.....	121
7.1 I/O Channels.....	121
7.2 Input/Ourput Processor.....	124
7.3 CPU-IOP Communication.....	126
7.4 Serial Communication.....	127
8 MEMORY ORGANIZATION AND OPERATION.....	136
8.1 Memory organization.....	137
8.2 Hit Ratios and Effective Access Times.....	161
8.3 Virtual Memory.....	166
8.4 Memory Management Hardware.....	174
8.5 External storage devices.....	179
8.6 Optical Storage Devices.....	191
8.6.1 CD-ROM.....	191
8.7 Flash Memory.....	195
8.8 Solid-State Drive.....	197
8.9 Parallelizing Disk Access using RAID Technology.....	197
9 DISTRIBUTED SYSTEMS.....	202
9.1. Characteristics of DS.....	202
9.2. Examples of distributed systems.....	203
9.3. Challenges of distributed systems.....	206
9.4 System models.....	210
9.5. Fundamental models.....	220
10 COMPUTER SYSTEM WITH NON-TRADITIONAL ARCHITECTURE.....	231
10.1 Traditional approaches in processor architectures.....	231
10.2 Very Long Instruction Word.....	234
10.3 Explicitly Parallel Instruction Computing.....	239
10.4 High-Performance Reconfigurable Computing.....	242
10.5 Reconfigurable mesh computations.....	250
QUIZ.....	254
REFERENCES.....	257
