"Ukraine: Issues that Matter" is the newest publication of Askold S. Lozynskyj, a Ukrainian-American attorney, former president of numerous Ukrainian organizations, including the Ukrainian World Congress, and a writer of hundreds of articles published worldwide and many Ukrainian language books. This is a collection of articles, often quite controversial, on four major issues: Ukrainian genocides, Ukraine post-Independence-events and persons, the need for historical truth and an overview and an anecdotal picture of the Ukrainian diaspora.

This publication should be of great interest to Ukrainian students and academia in Ukraine who know the English language and are interested, in particular, in a Ukrainian-American perspective, which may be different from their own. The casual reader may find this publication entertaining and even informative.
