UKRAINIAN FOR BEGINNERS

This book is intended for foreign students who are just beginning to learn Ukrainian. You will get acquainted with the system of sounds and the basics of grammar of modern Ukrainian. Each lesson has a clear structure: theory - practical tasks - dialogues - texts. The theoretical material is presented in the form of grammatical models and tables. Practical exercises will help you to understand how to use basic Ukrainian grammatical forms. A separate section of the book is devoted to the development of communicational skills. Short and simple texts will acquaint you with the most commonly used vocabulary.

This course will help you overcome the language barrier, you will start to communicate freely in everyday life: in the classroom, in the street, in the supermarket, in the cafe, in the bank, in the hospital, on the phone. You will be able to communicate with anybody in any situation. Also you will learn how to tell about yourself, your family, friends, the city in which you live and study, about Kyiv, about Ukraine, about your country.
